

Qualifications:

Experienced, professional and highly creative Graphic Designer with strong skills in design, layout, graphics and typography. Dynamic team player with the ability to work in groups or individually. Strong, well-developed written and verbal communication skills. Dedicated and passionate about all sectors of art and design. Accustomed to performing in deadline driven environments with various personality types. Bilingual in Spanish.

Experience:

Dec. 2004-present

Completed various freelance jobs for several clients and companies that included print, photography, and multimedia. (see portfolio)

Migun USA corp. June 2005- May 2008

Successfully fulfilled a vast array of projects from conception to completion. Effectively translated subject matter into concrete design. Projects included marketing material, promotional items, newsletter design, t-shirt design, package design and everything in between related to print. Created new design themes and graphics for marketing and sales presentations as well as training videos. Worked with marketing on sale campaigns as well as traveled with marketing to trade shows across the country. Effectively built design direction and revamped corporate identity. Designs have been distributed to branches and headquarter offices across the world. (see portfolio)

iti direct mail / Info tech October 2008- Present

Effectively helped create and launch a sub-division company of Information Technologies named iti direct mail. Responsibilities included; Corporate identity design as well as art direction for both companies, Website page addition and creation, as well as web maintenance and product cart setup. Developed an assortment of corporate marketing material from print to web, with new corporate logo as well as new corporate look and feel. Collection was designed with brand recognition in mind and is consistent throughout as it is original. Also designed various material for iti direct mail clients. Designs had various subject matter and styles of design. Company was built around my talent.
